

ROV pilot

Description

Dive Marine Services, a leading underwater I.R.M. services company established in 1974 and part of DM Group Services, is currently looking for qualified **ROV pilot** to join their team in Singapore.

- ROV piloting during various underwater operations in accordance with approved company procedures and objectives
- Performing electrical, mechanical, hydraulic repair and maintenance of the ROV and various ancillary systems
- Directing marine operations e.g. lifting, launching and recovery of ROV
- Coordinating with various stakeholders during marine operations e.g. port authorities, customer vessels and bunker barges
- Preparation of reports and required documentation pre- and post-operations
- Brainstorming and performing upgrades of ROV system to improve operational and technical efficiency
- Performing other ad hoc duties as assigned

Qualifications

- Diploma or Bachelor's degree in Mechanical Engineering or other relevant disciplines.
- Strong technical background
- Experience with hydraulics and robotic automation.
- Ability to critically evaluate problems and perform troubleshooting to improve the design and capabilities of the ROV
- Possess good 3-dimensional spatial awareness
- Possess good knowledge of general marine and electrical safety processes, and a safety-first mindset Previous offshore ROV experience preferable but not necessary
- Possess basic computer skills
- Meticulous, task-orientated and continuously striving to achieve a high quality level of work
- Possess positive, hands-on attitude, and able to work as part of a cohesive team
- Mentally and physically able and prepared to work on a vessel and shipyard environment
- Able to work irregular shift hours (when required)

Job Benefits

- Competitive Compensation
- Opportunities for further training and career advancement
- Workplace maintaining the highest standards of safety and health
- Variety of challenging projects and interesting work scope
